

With its incremental optical encoder and industrial design this rugged transducer provides the highest accuracy and longest life of any measurement device of its kind. This model is available in a wide variety of resolutions and output stages to fit virtually any requirement.

It can measure up to 550", yet when its cable is retracted it is only 6" long. Its small size and low-cost-to-measurement ratio offers remarkable flexibility and value.

Output Signal

-- see ordering information for available channels

PT9150

Cable Actuated Sensor Heavy Industrial • Incremental Encoder

Linear Position to 550 inches (1400 cm)

Aluminum or Stainless Steel Enclosure Options

VLS Option to Prevent Free-Release Damage

IP67 • NEMA 6 Protection

General

Full Stroke Range	0-75 to 0-550 inches
Output Signal	incremental encoder (quadrature)
Accuracy	0.04% full stroke
Repeatability	± 0.02% full stroke ±1/2 pulse max.
Resolution	10 to 250 pulses per inch
Enclosure Material Options	powder-painted aluminum or 303 stainless steel
Sensor	optical incremental encoder
Potentiometer Cycle Life	
Maximum Retraction	see ordering information
Acceleration	
Maximum Velocity	see ordering information
Weight, Aluminum (Stainless Steel) Enclosure	8 lbs. (16 lbs.) max.

Electrical

Input Voltage	see ordering information
Input Current	see ordering information

Environmental

Enclosure	NEMA 4/4X/6, IP 67
Operating Temperature	0° to 160°F (-17° to 71°C)
Vibration	up to 10 g to 2000 Hz maximum

PT9150

Heavy Industrial • Incremental Encoder

* -applies to stainless steel enclosure only.

VLS Option - Free Release Protection

The patented Celesco Velocity Limiting System (VLS) is an option for PT9000 Series cable extension transducers that limits cable retraction to a safe 40 to 55 inches per second for the single spring option and 40 to 80 inches per second for the higher tension dual spring option.

The VLS option prevents the measuring cable from ever reaching a damaging velocity during an accidental free release. This option is ideal for mobile applications that require frequent cable disconnection and reconnection. It prevents expensive unscheduled downtime due to accidental cable mishandling or attachment failure.

- using guide below, select PT9150 model **PT9150-0100-111-1110**
- remove "PT" from the model number ~~PT~~ **9150-0100-111-1110**
- add "VLS"
VLS + 9150-0100-111-1110
- completed model number!
